2.2. Use of Estimates

The preparation of financial statements requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities, if any) as at the date of the financial statements and the reported income and expenses during the reporting period like provisioning for taxation, useful lives of assets etc. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. The Company collects sales taxes and value added taxes (VAT) on behalf of the Government and, therefore, these are not economic benefits flowing to the Company. Hence they are excluded from Revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year. Excise duty (including education cess) in respect of finished goods is shown separately as an item of expense and included in the valuation of finished goods.
